Esports Manager & Strategist - Team Development - Event Management

Informatics Engineering student at Institut Teknologi Sumatera focused on esports team management and competitive performance development. Experienced in leading esports divisions (MLBB, PUBG Mobile, VALORANT) across team operations, strategy building, and player performance monitoring and evaluation.

Education

Institut Teknologi Sumatera - Lampung, Indonesia — Aug 2024
Undergraduate - Informatics Engineering (S1 Teknik Informatika)

Experience

Tera Esports - Institut Teknologi Sumatera — Sep 2025 - Nov 2025
Head of Research & Development Division

· Analyzed Mobile Legends: Bang Bang (MLBB) gameplay and meta for team strategy needs.

· Compiled gameplay evaluations as reference material for training and matches.

· Collaborated with managers and coaches to apply the analysis in practice.

· Ran scouting and player filtering based on performance, statistics, and team needs to support building a competitive roster.

Tera Esports - Institut Teknologi Sumatera — Dec 2025 - Present
Head of Game & Athletics Department

· Led three esports divisions (PUBG Mobile, MLBB, and VALORANT) in competitions and external activities with a focus on team performance and readiness.

· Developed training programs, performance evaluations, and discipline coaching to improve team consistency and quality.

· Coordinated the R&D division, managers, events, and players in building and implementing team strategy.

· Built and maintained data-driven athlete performance trackers (Google Sheets/Excel) to monitor individual and team progress.

· Scheduled and optimized weekly training sessions to keep training consistent and effective.

· Managed structured team documentation through Google Drive as an archive of activities, evaluations, and operational needs.

· Acted as the department's representative in internal communication and cross-party collaboration.
