Web Developer - AI Enthusiast - Informatics Engineering Student

Informatics Engineering student at Institut Teknologi Sumatera, actively exploring artificial intelligence (AI) and modern web development. Used to building digital products end-to-end - from productivity apps to data-driven platforms - while diving into practical applications of AI that solve real problems.

Education

Institut Teknologi Sumatera - Lampung, Indonesia — Aug 2024
Undergraduate - Informatics Engineering (S1 Teknik Informatika)

Experience

Head of Technology & IT - Tera Esports - Institut Teknologi Sumatera — 2026 - Present
Department Head

· Lead the technology direction and maintain the organization's integrated digital ecosystem: public website, documentation, and statistics tools.

· Bridge the technology department with game and athletics operations.

StudyHub - Personal Project — 2026
Independent Developer

· Built an academic productivity web app: planners, goal tracking, Google Calendar sync, mobile push notifications, and productivity dashboards.

Mini Projects - Personal Projects — 2025
Independent Developer

· Shipped 4 small web apps: MindWealth Digital (financial literacy e-book platform), Zoee Money System (offline-first finance tracker), a digital wedding invitation microsite, and TradeReward (gamified trading dashboard).

Skills, Projects & Other Experience

Hard Skills: React / Next.js, TypeScript, Tailwind CSS, HTML, CSS, JavaScript, Node.js, Supabase, PostgreSQL / MySQL, REST API Design, Git / GitHub, Figma

Soft Skills: Communication, Adaptability, Teamwork, Time Management, Leadership

Projects: MindMesh - local-first knowledge universe web app (TypeScript, IndexedDB, WebGL) - zann06.github.io/MindMesh; TinyWorld - browser-based 3D exploration game (TypeScript, Three.js / WebGL 2) - zann06.github.io/TinyWorld; CipherLab - 16-bit Feistel block cipher education lab (Python, Streamlit) - github.com/zann06/Enskripsi-Block-Cipher

Certifications

· Agentless Threat Emulation with AttackIQ Flex v3 - AttackIQ Academy (2026)

· HCIA-Security V4.0 - Huawei ICT Academy (2025)

· HCIA Security - Fresh Graduate Academy, Komdigi Digital Talent Scholarship (2025)

· Play It Safe: Manage Security Risks - Google / Coursera (2025)

· Introduction to Computers and Operating Systems and Security - Microsoft / Coursera (2025)

· HackPoint Starter Red Team Bootcamp (2025)

· Belajar Dasar AI - Dicoding Indonesia (2025)
