FARID RIZKY FAUZAN

Web Developer - Workflow Automation - Cybersecurity Student

fauzan.faridrizky@gmail.com | github.com/zann06 | linkedin.com/in/farid-rizky-fauzan | Indonesia

PROFESSIONAL SUMMARY

Full-stack developer and UX researcher building thoughtful digital products, from web applications to data-driven platforms. Cybersecurity undergraduate at Institut Teknologi Sumatera (ITERA) with hands-on workflow-automation experience for real clients.

EXPERIENCE

Head of Technology & IT - Tera Esports, Institut Teknologi Sumatera 2026 - Present

- Lead the technology direction and maintain the organization's integrated digital ecosystem: public website, documentation, and statistics tools.
- Bridge the technology department with game and athletics operations.

Workflow Automation Developer (n8n) - Freelance, Tangerang 2026

- Built meeting and work automation systems with n8n, connecting multiple apps and services for clients.
- Designed workflows that automate scheduling and follow-ups, reducing manual effort.

Independent Developer - StudyHub 2026

- Built an academic productivity web app: planners, goal tracking, Google Calendar sync, mobile push notifications, and productivity dashboards.

Independent Developer - Mini Projects 2025

- Shipped MindWealth Digital (financial literacy e-book platform), Zoee Money System (offline-first finance tracker), a digital wedding invitation microsite, and TradeReward (gamified trading dashboard).

SELECTED PROJECTS

- MindMesh - local-first knowledge universe web app (TypeScript, IndexedDB, WebGL) - zann06.github.io/MindMesh
- TinyWorld - browser-based 3D exploration game (TypeScript, Three.js / WebGL 2) - zann06.github.io/TinyWorld
- CipherLab - 16-bit Feistel block cipher education lab (Python, Streamlit) - github.com/zann06/Enskripsi-Block-Cipher

EDUCATION

Undergraduate student, Cybersecurity - Institut Teknologi Sumatera (ITERA)

SKILLS

React / Next.js, TypeScript, Tailwind CSS, HTML, CSS, JavaScript, Node.js, Supabase, PostgreSQL / MySQL, REST API Design, UI/UX Design, Git / GitHub, Figma, n8n Workflow Automation
